## Royal Society for the Prevention of Accidents

The RoSPA Health and Safety Awards were established in 1956 and are internationally recognised as the most sought-after accolade in the health and safety industry by organisations from every sector. Entry is open to all, irrespective of membership status.

The Awards have become the key fixture in the health and safety calendar and offer organisations a prime opportunity to prove their ongoing commitment to raising health and safety standards and to be a part of the longest running and most highly respected occupational safety awards programme.

For the last twelve years, the awards have been sponsored by NEBOSH, who along with IOSH and other key industry bodies, provide experts for the judging panel.

## Outcomes

The award comes in the competitive Industry category which Navigator entered this year and all winners have now been notified. The standard of entries overall continues to improve making winning an Industry Sector award an ever-greater achievement to strive for.
